MULTIPLIER EVENTS

In Spain, the event took place at Carlos V School in Murcia, where teachers and education professionals explored the platform, participated in teamwork activities, and shared ideas on how to integrate leadership skills into their classrooms. The event received highly positive feedback for its interactive and inclusive approach.

In October 2025, the YoungLEAD project came together in its final round of multiplier events, celebrated simultaneously across the three partner countries. These national events marked an important milestone, showcasing the project's results, learning platform, and practical materials created to promote leadership, inclusion, and European values in schools.
